**DETAILED ACTION**

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-10, drawn to a process of preparing unsaturated fatty acids and an apparatus to be used in the process.

Group II, claim(s) 11, drawn to an oil, lipid or fatty acid prepared by the process of Group I.

Group III, claim(s) 12, drawn to a method of using the oil, lipid or fatty acid of Group II in feed foodstuffs, cosmetics or pharmaceuticals.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The inventions are united in that the method and apparatus of Group I can be used to make the product of Group II, and the product of group II can be used in the method of Group III. However, the specification teaches that the product of Group II encompasses linolenic acid (see especially page 6, lines 16-19), which was known in the art at the time of filing as evidenced by its listing in the Merck Index (Tenth Edition, Windholz et al., eds., Merck and Co., Inc., NJ, 1983; compound 5333). As the claimed product does not represent a contribution over the prior art, the groups lack a unifying special technical feature and are not so linked as to form a single inventive concept.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 1636

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel M Sullivan whose telephone number is 703-305-4448.

The examiner can normally be reached on Monday through Friday 8-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Remy Yucel, Ph.D. can be reached on 703-305-1998. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
